In presenting this wholesale list, containing a wide selection of plants, we call special attention to the large assortment of Evergreens of the better types, at fair prices. This stock has had the best of care and by frequent trimming and transplanting we feel it is above the average.

Our Perennial and Rock Plant Department, offers a fine selection of Plants with excellent root system.

The Grafted Evergreens, we produced in the past, have given much satisfaction. We have enlarged our facilities for growing the better type of plants. We use large grafts from mother plants in our nursery.

We invite inspection of our nursery and propagating plant. Drop in and look around, no obligation. Let us show you some interesting stock, most of which has been grown by us.

We are located on the Jericho Turnpike, between Mineola and Westbury, easily reached by motor. By train; come to Mineola, and phone our office, Garden City 2576, and our representative will call for you at the station.
